BOWL A vessel for displaying cut flowers in water or for growing bulbous plants and having a diameter at its mouth at least equal to, but usually greater than its height.

VASE A vessel for displaying cut flowers in water and having a greater height than at the diameter of its mouth.

HERBACEOUS PERENNIALS Plants with non-woody stems which die down to the ground annually but which have root stocks which remain alive throughout several years. For horticultural purposes, the word 'rootstock' includes all bulbs, corms and tubers.

KIND A term used in classification of plants, flowers, fruit and vegetables for Show purposes. For example, Roses, Dahlias are kinds of flowers; Apples, Pears are kinds of fruit; Carrots, Onions are kinds of vegetables.

VARIETY A term used for Show purposes indicating a variation within a 'kind'; thus 'Super Star', 'Peace' are varieties of Roses; 'Blenheim Orange' a variety of Apple. It follows therefore that where in the schedule a 'Variety' of a particular flower is called for, all flowers must be the same colour.

DAHLIAS Dahlia Classes are governed by the classification of Dahlias for Show purposes by the Classification Committee of the N.D.S. and the allocation of varieties to their appropriate sections and their colour classification shall be according to the N.D.S. classified official list of varieties for the current year.
